A report for companies exploring Oman

OPGM 2026 brought Oman's pharma and healthcare investment proposition to Indian and international industry.

This report records the BHE exposure and explains the longer-term opportunity now taking shape in Oman.

01

What happened

Three days of meetings, institutional engagement and technical conversations at Bayt Oman.

02

What Oman is building

Specialised pharmaceutical and medical-device clusters across selected economic and industrial locations.

03

How companies can participate

Supply, register and distribute, add local value, manufacture, invest or use Oman for regional expansion.

Oman's National Direction for Pharma and Biomedical Industries

A Nationally Backed Proposal

His Majesty Sultan Haitham bin Tariq blessed the proposal to establish specialized industrial clusters for pharmaceutical industries and medical devices in Oman's economic and free zones.

H.E Qais bin Mohammed Al Yousef,
Chairman of OPAZ

The stated aims are to strengthen national drug security, localise pharmaceutical and biomedical industries, attract specialised investment and build an integrated ecosystem for manufacturing, warehousing, distribution and export.

First phase: more than 1.5 million m² across Salalah, Raysut and Khazaen

A focused business mission led by OPAZ

OPGM connects pharmaceutical and healthcare companies with Oman's investment, manufacturing, supply and partnership opportunities across economic zones, free zones and industrial cities.

1

Supply to
Oman

2

Establish in
Oman

3

Serve wider
markets

OPGM 2026 uses the India - Oman CEPA context to create practical conversations across Trade, Technology, Capital, Manufacturing and Investment.

One Oman delegation, complementary capabilities

12 delegates from 7 Omani Entities

- | | | | |
|----|---------------------------|----|-----------------------|
| 01 | OPAZ | 02 | Madayn |
| 03 | Invest Oman | 04 | Oman Exports |
| 05 | Oman Investment Authority | 06 | Khazaen Economic City |
| 07 | Salalah Free Zone | | |

The delegation combined investment facilitation, industrial locations, export development and capital perspectives for company conversations.

BHE exposure in New Delhi

BHE marked the public launch of OPGM's company engagement program.

Pharma MachTech and LabNext Expo 2026

7–9 September 2026, Bharat Mandapam, New Delhi

The expo brought together pharmaceutical manufacturing, laboratory, healthcare and investment stakeholders. Bayt Oman provided a dedicated setting for Omani entities to meet Indian and international companies.

The exhibition opened with Shri Piyush Goyal, Union Minister for Commerce and Industry, received at the Oman Pavilion by H.E. Issa Saleh Abdullah Al Shibani, Hon. Ambassador of Oman to India.

**The operating idea was simple:
Help each visitor leave with a clearer pathway to
Supply, Partner, Establish or Invest in Oman.**

6 Ways to Engage with Oman

1 Supply

Medicines, formulations, APIs, diagnostics and hospital products

2 Register & Distribute

Market registration and local commercial partnerships

3 Build Local Support

Stocking, servicing, cold chain and technical support

4 Add Value Locally

Packaging, assembly and other local processing

5 Manufacture

Long-term production in Oman's industrial ecosystem

6 Expand Regionally

Use Oman to serve GCC, Africa and wider markets

Stable operating base

Connected logistics

Flexible locations

India–Oman CEPA context

Companies can begin with a commercial relationship and progress toward deeper localization as the business case matures.

Selected companies that engaged at Bayt Oman & post-event

01 Dr Agarwal's Eye Hospital

02 ACG World

03 Morepen Laboratories

04 Torrent Pharmaceuticals

05 Strides Pharma Science

06 Fourrts Laboratories

07 Q-Line Biotech

08 SAGA Lifesciences

The event also engaged SMEs, Manufacturers, Healthcare Providers, Investors, Institutions and Technical Partners.

Names indicate reported event engagement only.

They do not imply a partnership, investment decision or endorsement.

First-phase industrial footprint exceeds 1.5 million m²

>1.0m m²

Salalah City for Pharmaceutical and Medical Industries

Approximately 500,000 m² in Salalah Free Zone plus more than 500,000 m² in Raysut Industrial City.

>500,000 m²

Pharmaceutical and Medical-industry Zone in Khazaen Economic City

Selected for strategic location, logistics integration, proximity to markets and growing pharmaceutical investment.

Dhofar industrial and logistics platform

Salalah and Raysut can support connected manufacturers, suppliers and service providers near a major port gateway.

Khazaen market and logistics platform

Khazaen adds proximity to population centres and a growing medicine-manufacturing base.

Announced areas describe the first-phase proposal.
Individual projects remain subject to detailed allocation, licensing and approval.

An integrated pharma and biomedical ecosystem

01 Research and Technology

R&D, technology transfer and specialist partnerships

02 Inputs and Production

APIs, formulations, biologics, vaccines and medical devices

03 Quality and Compliance

GMP, laboratory capability and global-quality systems

04 Packaging and Support

Primary and secondary packaging, machinery and cleanrooms

05 Logistics and Market Access

Warehousing, cold chain, distribution, ports and export

06 Skills and Services

Talent, engineering, maintenance and professional services

The cluster concept links investors with the supporting capabilities required to operate and expand over time.

Priority Investment Fields

01 Active Pharmaceutical Ingredients

02 Pharmaceutical Formulations

03 Biological Medicines And Vaccines

04 Contract Manufacturing

05 Medical Devices And Supplies

06 Pharmaceutical Packaging

07 Research Laboratories

08 Digital Health And Monitoring

09 Machinery, Cleanrooms And Technical Services

OPGM welcomes companies at different points in the value chain, including Investors, Manufacturers, Technology Providers and Specialised Service Partners.

Industrial Locations Connected to Wider Markets

Sea Gateways

Duqm, Sohar and Salalah connect industrial projects to international shipping routes.

Air and Road Links

Muscat air connectivity and Oman’s road network support time-sensitive and regional distribution.

Storage and Handling

Dry, refrigerated and specialised warehousing support pharmaceutical supply chains.

Zone Services

Investor facilitation, licensing and location-specific infrastructure support project establishment.

The best location depends on target markets, manufacturing process, logistics profile, regulatory needs and project scale.

Incentives and operating conditions remain subject to project, location and eligibility approval.

Oman pharma ecosystem | Medicines, APIs & diagnostics

IDENTITY	MANUFACTURER	YEAR	OMAN BASE	WHAT THEY DO / SHORT PROFILE	OWNERSHIP
	National Pharmaceutical Industries (NPI)	1999	Rusayl Industrial Estate	Established formulations manufacturer: beta-lactams, oral solids and liquids.	Omani
	Oman Pharmaceutical Products (OPP)	2001	Raysut, Salalah	Export-oriented formulations: oral doses, cephalosporins, hormones and topicals.	Omani
	Al Wajer Pharmaceuticals	2012	Sohar Industrial Estate	Specialist manufacturer of drug-loaded pellets for formulation partners.	Omani / Kuwaiti
	Philex Pharmaceutical Industries	2023	Salalah Free Zone	Platform for solid doses, sterile products and cephalosporins.	Qatar / Jordan / Oman
	Drug Manufacturing Company	2010	Sohar Industrial Estate	Cephalosporin API producer serving export formulation markets.	Oman / Kuwait
	Menagen Pharmaceutical Industries	2024	Rusayl Industrial Estate	New platform for secondary packaging and specialty medicines.	Omani
	Dhofar Pharmaceutical Industries	2016	Raysut, Salalah	GMP large-volume IV and dialysis solutions using form-fill-seal.	Omani
	Carbon Technologies	2022	Innovation Park Muscat	Oman biotechnology and IVD company developing infectious-disease diagnostics.	Iran / Oman
	Opal Bio Pharma	2025	Khazaen Economic City	Emerging biopharma platform for vaccines, biologics and sterile products.	Switzerland / Oman
	IZZ Pharmaceuticals	2025	Nizwa Industrial City	New large-volume parenteral plant using blow-fill-seal technology.	Omani

Ten manufacturers across finished formulations, intermediates, sterile products, biotechnology and IVD.

These examples show that the announced cluster plan builds on Operating Companies, Committed Capital and Existing Industrial Locations.

Figures are public-source statements and should be reconfirmed during project due diligence.

Existing pharmaceutical investment provides a foundation

Medical devices and supplies in Oman

IDENTITY	MANUFACTURER	YEAR	OMAN BASE	WHAT THEY DO / SHORT PROFILE	OWNERSHIP
	Al Farsi National Enterprises	2021	Al Misfah Industrial Area	Local producer of surgical and N95 masks; medical and dental supplier.	Omani
	Salalah Medical Supplies (MEDIK)	1997	Raysut, Salalah	Gloves, dressings, cotton, masks and incontinence products.	Omani
	Majan Medical & Laboratory Industries	1993	Barka	Focused medical-plastics maker: sharps and specimen containers.	Oman
	Medical Capital LLC – CureTech	2017	Muscat	Patient-specific cranial and maxillofacial implants using medical 3D printing.	Oman
	Alsharji & Koukash – BClear	2022	Ghala / Bawsher	Omani dental-technology company producing clear aligners for MENA.	Syria / Oman
	Health Supply Factory	2025	Sohar Industrial Estate	Disposable syringes, dental instruments and device consumables.	Oman
	Medical Supplier	2025	Ibri Industrial Area	New full-manufacturing facility; product scope requires confirmation.	Omani
	Pioneer Quality Investment	2025	Khazaen Economic City	Single-use devices, PPE and hospital consumables.	Iran
	Lalan Middle East	2025	Sohar Free Zone	Medical-glove packing, cleanroom packaging and ETO sterilisation.	Sri Lanka

Nine manufacturers across PPE, disposables, implants, dental technology, packaging and sterilisation

These examples show that the announced cluster plan builds on Operating Companies, Committed Capital and Existing Industrial Locations.

Figures are public-source statements and should be reconfirmed during project due diligence.

Who should engage with OPGM now

- | | | |
|----|-------------------------------|---|
| 01 | Manufacturers | Formulations, APIs, biologics, vaccines, devices and diagnostics |
| 02 | Supply Partners | Healthcare products, laboratory equipment, disposables and hospital supplies |
| 03 | Technology Partners | R&D, digital health, smart monitoring and specialised production technology |
| 04 | Industrial Enablers | Machinery, cleanrooms, packaging, warehousing, logistics and cold chain |
| 05 | Investors and Partners | Capital, joint ventures, contract manufacturing and market-development partnerships |

A company can engage at the level that matches its present readiness, then deepen its Oman pathway over time.

The next chapter: specialized pharma and medical-industry clusters

National drug security

Build reliable local production and strengthen critical supply chains.

Industrial localisation

Attract manufacturing, technology and specialised services into Oman.

Integrated export ecosystem

Connect production with warehousing, distribution, ports and export markets.

The Royal blessing announced on 22 September 2026 gives this direction a clear national mandate.
